

# Sigra: Verification-First Litigation Intelligence

**What is Sigra?**  
**A Complete Litigation Environment**  
It's a single platform for document review, AI analysis, and strategic work product.

**Tier 1: Core Purpose:**  
**Verified Discovery Intelligence**  
Finds "smoking guns" and proves what evidence is missing from discovery.

**Tier 2: Core Purpose:**  
**End-to-End Litigation Intelligence**  
Manages the full case lifecycle: strategy, depositions, and settlement.

**Verification-First Principle**  
Every output is cryptographically proven, ensuring all claims trace directly to source evidence.

**Graph-Native Intelligence**  
Connects all case data into a knowledge graph to reveal hidden relationships and patterns.

**Tier 3: Core Purpose:**  
**Daubert-Defensible Engineering Causation**  
Proves "why" a product failed using Physics-of-Failure analysis on raw engineering data.

**Tier 4: Core Purpose:**  
**Verified Causation & AI Strategy Engine**  
Extends cryptographic proofs from physical causation to legal and procedural arguments.
